

VG – CAST IRON V-GROOVE WHEELS

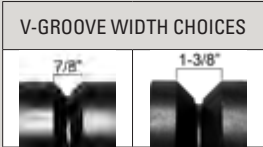

Cast iron V-groove wheels are made specifically for use on inverted angle iron track; they can also be used on flat surfaces.

Strong durable wheels at an economical price.

Each wheel has a precisely machined 90° v-groove with relief groove which enables load equalization.

Tensile strength of 30,000 PSI.

Temperature range: -45° F to 180° F.

Wheel Diameter	Tread Width	Hub Length	Load Capacity	Part #	Groove Width	Replace** with desired Bearing Code.
